What we will do:

- Open our play and youth spaces daily, and deliver an exciting programme of school holiday activities, trips, hot meals, and creative and sporting opportunities.
- Grow and diversify our one-to-one and small group programmes for all ages, to build skills, health, wellbeing and confidence through nature, healthy lifestyles, arts, sport, and culture.
- Expand our friendly and supportive health and fitness offer with new classes, a new gym location at Glencoyne, and targeted support for people facing barriers to fitness.
- Support older and isolated residents through dedicated services and activities, including befriending, lunch clubs, and community navigation.
- Strengthen partnerships to bring new wellbeing activities and services to Southmead.
- Develop a youth wellbeing hub at Greenway and provide outreach, mentoring, and positive activities for young people at most risk of harm.
