Who We Are

We are a community-led charity that has been at the heart of North Bristol for more than 30 years.

Every day, more than 500 people come through the doors of our welcoming community hubs - for free youth and play services, crisis support, employment pathways, fitness, social groups, creative workshops and, of course, a warm, friendly cuppa.

At a time of growing inequality and isolation, we know that real change happens when people work together.

We bring our community together to create change that matters, and to make the area better for everyone. We bring in jobs and services, enable affordable homes, protect natural spaces, and create a Southmead where everyone belongs. Join us as we help to build a thriving, inclusive and connected community.
