Our Values:

Welcoming - Collaborative - Resourceful

Welcoming

We want everyone to feel that they belong, are included, valued, and at ease. We actively remove barriers so people can take part, and we celebrate the diversity of our community.

Collaborative

We work together with openness, honesty and trust. We listen, share ideas, and build strong partnerships because we know we achieve more when people work together.

Resourceful

We create and use our own resources. Through community trading and creative thinking we make the most of opportunities, build on people's strengths, and find sustainable ways to make change happen.
