Our Sustainable Centres

Home to more than 200 regular groups, services, or organisations

Our centres are more than buildings – they are essential community infrastructure: places to learn, work, grow, and be together.

Last year we welcomed more than 200 different organisations, groups, and services, bringing opportunities, activities, and support to the local community. More than 9 in every 10 hours of activity we hosted contributed directly to health, wellbeing, learning, community participation, or social inclusion.

Each year we are proud to build climate sustainability into every step we take, this year planting 225 trees, partnering on five Bristol Energy Workshops, and creating two new Green Economy staff roles.

Below are just some of the partners and organisations we work with and host at Greenway Centre and The Ranch.

The North Bristol hub for recovery and safe alcohol and drug use is now on site.

Horizons Drug and Alcohol Partnership

Travelling Kitchen CIC

48 sessions to connect older adults to cook and share food

"The Ranch Is the best youth and play facility in Bristol - Carol Grant from WECIL"

West of England Centre for Inclusive Living

Raised In Bristol CIC

Children from our on-site nursery are involved in Trust events like our tree planting day and community festival.

20 Green Skills Workshops
19 Climate Pop-up events
5000 climate and energy special editions of The Mead magazine

Sustainability

Kumon Connect

Kumon Maths and English learning launched at Greenway.
