Realising Our New Vision

We have three focussed areas of work to deliver our mission and vision over the next ten years. They set out the difference we will make, how we will achieve it, and the new projects or initiatives we will get off the ground.

1

A confident, sustainable, community-led neighbourhood.

2

Our centres as sustainable hubs – for community, employment, learning and health.

3

Strengthen wellbeing at every stage of life - helping people achieve their goals and thrive.
