1 A confident, sustainable, community-led neighbourhood

What this means:

- We will put community leadership at the heart of everything we do. Our ambition is a confident, connected, community-led Southmead where we all shape what happens next.
- We secure assets in community ownership and bring investment to our area.
- We celebrate what is great about Southmead, and build on our skills and ideas to create opportunity and tackle disadvantage.
- We raise a strong, authentic and persuasive community voice - working together to create the initiatives, changes, and decisions we all want to see.
- We respond quickly to changing needs and opportunities, making the most of what is possible for our community.
